As negotiations are going so far, things don't look very good. We

We realized that we don't even have a strike fund. It's looking more and more like we need that kind of strength. We are proposing a major outreach over the summer and into fall. One-on-one conversations. We will be talking to people and educating people about what a successful strike may take. This will be a huge effort. Delegate Assembly – are you in? How much time can you contribute over the summer?

Will you support building the union's capacity to go on strike? We need to assess our folks on a number of questions and we need our DA to support us with this education effort. We need this one-on-one campaign.

Who said they would organize for a strike on the bargaining survey?

Prepare an EFF statement.

We need to do what's in the best interest of our membership. We need to have a credible strike threat to move the administration.
