

**Alan D'Souza (Labor Council)**

Many of AFT 2121's greatest successes resulted directly from our relationships with community and labor allies. San Francisco Labor Council provides a platform to amplify our mission and build the necessary partnerships to fight the austerity measures we continue to face. I have previously served as a delegate to the labor council where I built solidarity with unions across the city around our shared goals of social, economic, and educational justice. I humbly ask for your vote of support so I may again fight for the college and city all San Franciscan's deserve.
