

**Alan D'Souza**

In these uncertain times, I proudly stand with the Union Power Slate of experienced leaders with proven records in contract bargaining, creation of Free City, grievance work, and building community alliances. I have served as a union officer alongside each member of this slate building union power that saw us prevail through the accreditation crisis, our first strike, and countless struggles for social and economic justice. I would be honored by your vote to serve again, so together we ensure City College comes out of this pandemic stronger and delivers its promise of hope and stability to students and faculty.
