

## Labor Council delegate statement

I wish to strengthen the movement for social and economic justice, world peace, and a sustainable environment. I believe these values should figure prominently in AFT 2121 and at the Labor Council as we build solidarity with our sister unions, community organizations and political allies in support of local, statewide, national, and international struggles.

I am a retired CCSF ESL instructor, a former President of AFT 2121, and Union activist since the 1980s. I am on the Steering Committee of US Labor Against the War and an active member of CISPES (Committee in Solidarity with the People of El Salvador).
