

**Alisa Messer**

Vote Union Power Slate! Two decades working with AFT 2121 has enriched my understanding of labor, activism, and building collective power and solidarity. I'm proud of our union's successes, despite the odds, in the difficult post-Recession years. We have defended our contract and gone on offense for our college and public education, and we have moved progressive funding and policy for our students, our college, and our communities. We now face unprecedented and as-yet-unknown difficulties with the COVID-19 crisis. Whatever's next, I'd be honored to have your continued support to work with this passionate team to address it.
