

An independent voice for all faculty! These challenging times mean we need a strong union that reflects a diversity of voices and opinions. My advocacy for faculty will be foremost in my actions. Leveraging feedback from faculty and consistent participation at union meetings are my promises to you. Past experience on the Executive Board and negotiation teams will inform my desire to protect and expand our contract provisions. My understanding of faculty needs has a strong foundation with my experience as both a part time and full time faculty member. I would be honored to serve on the Executive Board!
