

**Rick Baum**

By voting for me for the SF Labor Council, you are showing you favor achieving social justice:

1. By uniting workers to engage in grassroots struggles so we can fight for our interests and end the for-profit system that does not serve humanity,
2. By ending two-tier contracts in which people doing the same work as others are paid significantly less as is the case for those teaching part-time,
3. By not endorsing most politicians running for office who have repeatedly demonstrated little interest in fighting for the needs and interests of workers beyond uttering meaningless rhetoric.

Thanks
