

I would like to continue serving as a Delegate to the San Francisco Labor Council and would appreciate your vote—if you think I should continue. I support Vice President Wynd, her team and their platform; however, I recognize that there are competent and principled people on both sides of this election. In the local and global struggles to survive the pandemic, resolve the climate emergency, and continue fighting for peace, social and economic justice, there are many more issues to unite than divide us, and unionists should, and will, continue to advocate for and serve the people.
