

## **Stephen Brady**

I have been teaching Auto repair full time at Evans since 2016 after being part-time since 2006.

Having achieved an associate degree from the college I also have a student's perspective.

Recently as a union delegate, I have been actively fighting and lobbying to save our college from the devastating cuts, by expanding funding through the city with CHEF and other sources. If elected, I hope to bring all of our union's sisters and brothers, from our many campuses and departments together as one strong united and respected **Union**.
