Fair contract NOW

Our AFT 2121 Bargaining Team returned to the negotiating table with the District on August 12th, proposing an across-the-board raise, including a 3.7% restoration (to 2007 salary levels) and an additional 16% over three years to address losses to inflation and restore competitive salaries at City College. Despite repeatedly indicating they would bring a compensation proposal to the table, the District deferred. Instead they proposed changes in faculty evaluation procedures that would transfer more authority from faculty peers to administration. After hearing AFT objections to the District evaluation proposal at bargaining last week they backpedaled, stating that we were misreading their "intent." For more details on bargaining sessions since the beginning of our fight for a fair contract check our negotiations update section on our website. At aft2121.org go to "News" and look for "Negotiations."

Did you hear about FLAC?

CCSF has a new payroll system, and paychecks will look a little different. All part-timers, and full-timers working overload, will see changes immediately. Go to aft2121.org/check-your-check/ for more detail.

Delegate Assembly, Dec. 15

Ocean, MUB 240, 3–5pm

Strike Hardship Fund VOTE!

We are calling for all faculty to vote to establish a Hardship Fund. This fund will support our most economically vulnerable faculty members if Administration leaves us with no choice but to call for a strike. By voting yes, we will show the Administration that we are serious, powerful, and united in support of a good contract. Look below to find the polling location that's best for you.

Strike Fund voting schedule
