

**Wynd Kaufmyn****Candidate Statement**

I have no easy answers to the profound problems that face our college. I believe answers lie in collaboratively and lovingly forging solutions together, especially empowering rank and file voices.

I've been at CCSF since 1983, teaching engineering, fighting the ACCJC (Save CCSF), flying to DC for NACIQI hearings, opposing privatizers that want the Balboa Reservoir, standing up to administration on class cuts, and engaging in union work: bargaining team, executive board, grievance officer, affirmative action task force, vice president. Unions are the voice of working people and an avenue for social change. Unions can bargain for the common good. As a life-long activist, I'm proud that AFT 2121 has been a leader in winning improved wages and benefits for part-timers nationwide. I'm grateful that our union prioritizes accessible, quality education for all communities.

My Endorsements:

Christina Yanuaria, Vice President

Yvonne Webb, Treasurer
