Strike!!!

For the City College San Francisco Deserves

Wednesday, April 27, 2016

All Campuses - 6:30am to 7:30pm

AFT 2121

During the accreditation crisis, City College students and workers fought alongside our community for CCSF. Now City College Administration intends to shrink classes by 26%, layoff more than a quarter of the faculty, and refuses to negotiate a fair faculty contract.

We envision a City College with a broad mission - one that cares for students and workers. We need CCSF Administration to join with us and prioritize bold new initiatives such as making CCSF free for San Franciscans as part of a plan to increase enrollment - not shrink this cornerstone of public higher education in the Bay Area.

Our one-day strike will send a clear message to the City College Board of Trustees and demonstrate that students, community and faculty stand united for the CCSF that San Francisco deserves. Stand with us and help us defend a City College for everyone!

We are all City College
