Strike

for the City College San Francisco deserves Wednesday, April 27, 2016 all campuses, all classes, all day

AFT 2121

City College faculty have fought alongside our community for CCSF. Now administration intends to shrink classes by 26%, lay off more than a quarter of the faculty, and refuses to negotiate a fair faculty contract.

We envision a City College that cares for students and workers. We need bold initiatives such as making CCSF free for San Franciscans - not a downsized college.

Our one-day unfair labor practice strike will send a clear message: We stand united for the CCSF that San Francisco deserves. Stand with us to defend a City College for everyone!

Join us on the picket lines at our CCSF Campuses througout the City. See aft2121.org and follow AFT 2121 on Facbook for details.

We are all City College
